The long wait for the revolutionary Sega CD is finally over. By the time you read this, the system will be in the stores along with the first batch of games. Do you have your money ready? Will you be the first in line to get one of the machines? Or will you wait and see what happens in 1993.

There probably won't be any problem in getting the system so you won't have to camp out in front of your local toy store waiting for them to open. Sega promises to have 200,000 CD systems in the stores, nationwide, by Christmas. And, at a lofty \$300 list price, the systems probably won't be flying off the shelves, especially considering the economy as it is. Software, on the other hand, will probably be in short supply. The few titles that will be in the stores, especially those from the third-party licensees, could disappear from the shelves very quickly as anybody who will plunk down three bills for the system, will certainly be able to afford another hundred or so for a couple of games.

How will the system sell? That's easy to predict. Like any new product, there always are a lot of players who have to be the first to own everything. This group of hard-core players will buy all 200,000 systems and this will please Sega to no end. The PR people will have a field day at the Winter CES about how the Sega CD sold out at Christmas! Nothing wrong with that. Nintendo did that last year with their Super Nintendo System. They even went one better and sold over a million systems that never existed, if you believe their numbers.

But the big question is, will the average Genesis player spring for the CD? Some will but, probably not very many. Quite frankly, it would have been nice if there were more games out for the system. Night Trap, Cobra Command, Sewer Shark and Black Hole Assault will keep the average player busy for the first two weeks. After that it's back to the old reliable Genesis games. If one of the 'Make Your Own Music Video' CDs gets out by Christmas, then there will be some serious long term game playing, but as of this point in time we haven't seen the disc.

Next year is when the Sega CD will really take off, though, when Sonic, Dolphin, Batman, and more of the really hot CDs get out into the stores. That's when the average Joe will lay out the big bucks.

Now that you have the system, what do you think of it? Send us your comments and we will publish them next issue!

In other news, it has come to our attention that there has been some highly inaccurate information being published about Mega Play. It appears that some overzealous editor has printed that their Sega magazine was the first to be published and is also the best selling Sega magazine on the market. Normally we brush aside little digs from the competition, but when they outright lie about important information, it is going too far. I am holding our first issue of Mega Play which was published in the Spring of 1990. Your Volume 1 Issue 1 carries a masthead date of Fall 1990. As for the largest circulation, wrong again. Actual sales numbers for each of the magazines for all of the two hundred plus markets are readily available to anybody. You ought to check the numbers out. Mega Play outsold your Sega magazine in more than 95% of the markets.

STREET FIGHTER 2 ON SEGA CD?

I have been hearing rumors that Sega will be bringing out a Sega CD version of Street Fighter 2 Champion Edition sometime in the Spring of 1993. When I call Capcom they say there will not be an American version of SF2 other than their Super Nintendo version. Who is correct?

Tom Bucholz
Dumas, TX

I have heard over the computer bulletin boards that Fighting Street 2 is coming out for the TurboGrafx next Summer. It is supposed to be a 20 megabit cartridge and not a CD. It also is going to be the Champion Edition and not just the normal game. If this is true, then did Capcom also sell the rights to Sega? Hey, if Turbo Technologies can get it why couldn't big Sega cut a deal also?

Chad Larsen
Greeley, CO

Fighting Street 2 will be coming out in Japan in the Spring of 1993!

(Ed. Talk about a hot subject! Of the thousands of letters we get here at Mega Play, at least 80 percent of them are about the availability of Street Fighter 2 for the Genesis, Mega Drive, Mega CD or Sega CD. You name the rumor and we have heard it also! Unfortunately neither

Sega nor Capcom will go on record to confirm whether a version of Street Fighter 2 (other than the Super NES game) will ever hit our shores.

There is news though. Turbo Technologies, the company that is currently responsible for the TurboGrafx and Turbo

Duo game systems has gone on record to say that Fighting Street 2 (their version of Street Fighter 2) will be coming out in Japan next year. Other sources in Japan are confirming that it will be a 20 megabit turbo chip card and that it probably will be the Champion Edition. Apparently the reason it won't be a CD is the fact that the CD can only download 2 megabits of information at a time, and that this just isn't enough to be able to make a good playing game. Turbo Technologies does say that they haven't been able to acquire the rights to do a U.S. version.

With a PC Engine version cinched, it is highly likely that a version will also appear for the Japanese Mega Drive or Mega CD. With 8 megabit of RAM in the Mega CD, sources in Japan tell us that this would be sufficient memory to download enough of the game at one time to make a CD version probable. While officials at Sega are hinting that a version will hit these shores, nobody will go on record. It appears that we'll have to wait a while longer!

WANTED, THUNDER FORCE 4!

I am very upset with Sega! How could they go and change the name (of the best shooting game ever made) from Thunder Force 4 to some idiotic no name title Lightening Force. They couldn't even spell it right! But to take a name which has an established track record (TF3 is spectacular!) and to turn it into a nothing-ball name makes as much sense as calling Sonic 2 - The Revenge of Lixswak. Can you imagine how many more games they would sell if it was called TF4?

Perry Williams
Terre Haute, IN

Lightening Strike, a.k.a. Thunder Force 4 will soon be out for the Genesis!

(Ed. Look on the bright side Perry! At least the game will be coming out here in the U.S. While the game has been out in Japan for some time, players should know that it does have a new type of encryption built in that prevents the cart from being played on the U.S. Genesis system. This complaint has been echoed by many a player who thought that they could get an early glimpse of this super shooter by purchasing the Japanese version. Instead, all they got was a rude surprise when the black screen popped up saying that the game would only work on a Mega Drive! Now that Sega is doing a legit version everybody will get to see how good the game really is! We agree that the name Thunder Force 4 would have some recognition among shooter fans but if the word gets out that the name has been changed, hopefully this mega-hot game won't go by unnoticed.)

CDs CHEAPER THAN CARTS?

I have read in an audio magazine that it is very inexpensive to mass produce CDs. The magazine says that it only costs pennies to make a disc. Will this reduction in cost be transferred to us, the game players when Sega brings out their CD games?

Marc Grebb
Torrance, CA

(Ed. Good question Marc! You are right, each disc does only cost the companies a few cents to make. Unfortunately, with all the extra memory on a disc, there now are larger costs to make the game. The quests are longer, there are animated cinematics or moving video and even more expenses to produce the great tunes. Sega will be selling their discs for \$50 and \$60 though.)

MORE SEGA CDs...

You have done a great job in keeping us informed on everything that has been going on with the Sega CD. One game that interest me is Sherlock Holmes Consulting Detective. I have played it on the TurboGrafx CD and I am not real excited about seeing the same game appear again on the Sega CD. Has there been any work done on a Sherlock Holmes 2?

**Terry Ostrand
Winnipeg, Manitoba**

I want to buy Sega's new CD machine but frankly, the games that I have seen aren't all that impressive. Earlier this year there were big things promised for this system with dozens of new games that were supposed to blow our socks off. Spectacular arcade conversions, games with actual movie footage, and extra long adventures that would take dozens of megs to do on a cart. It seems that as the big day arrives, Sega is actually going to deliver a lot less than they had earlier promised. Face it, look at their pack in discs. An audio CD...wow! An audio CD with still graphics...double wow!! A super disc with 4 classic Genesis games that every player already has...triple wow!!! And Sol-Feace and Sherlock Holmes...yawn! Will there ever be a decent CD that will force me to buy their machine?

**Jesse Clement
Flat Rock, MI**

**Sherlock Holmes Consulting Detective
Volume 2 will be out in April 1993.**

(Ed. Good news Terry! ICOM Simulations (the company that did the first Sherlock Holmes adventure) is just now putting the finishing touches to SHCD Volume 2! This version, like the first will have three

mysteries. This new game will feature over 90 minutes of color motion video and promises to offer even more features than the first CD. The three mysteries will be called: "The Two Lions", "The Pilfered Paintings", and "The Murdered Munitions Magnate". True Sherlock fans will be happy to know that these three cases are original Conan Doyle stories! If this wasn't enough, ICOM has announced that Sherlock Holmes: Consulting Detective Volume 3 has already been scripted!

Jesse brings up a good complaint. On the outside it looks like there aren't a lot of good games coming out for the Sega CD. However, early next year the hot titles should really start pouring in. Sonic CD, due out this Spring, will be one of the first mega-hot titles. Taito's quarter muncher - Night Striker along with Final Fight, Dolphin CD and Young Indiana Jones will be right behind to keep the action flowing. Who knows Sega may even throw a Street Fighter Champion Edition in to boost their sales sometime next year!

The problem is, good CD games take a lot of time to produce. Sega's machine has potential, but we probably won't see many CDs with the way cool scaling, rotation, fade or 3-D effects till Summer or Fall next year.)

MORE COLORS & SPRITES!!

I sure hope that Sega's new Mega CD is going to increase the number of colors and sprites that the system can put up on the screen as the Super Nintendo is really doing a number on the Genesis. I mean 64 colors? Could you picture how plain a Street Fighter 2 game would look? If the Sega CD is half the machine it is supposed to be, and if Sega could add a few hundred extra colors on the screen, (another hundred sprites wouldn't hurt either) the new system would trounce anything that Nintendo would do! Tell me that the CD will help the Genesis! If it won't, how far away from reality is the rumored 32-Bit Giga Drive?

**Stephen Foster
Raleigh, NC**

Sonic the Hedgehog 2 is the first of Sega's new 'higher resolution' games!

(Ed. There is good news and bad news Stephen. The good news is that Sega has developed new programming 'tricks' that fool the Genesis into boosting the resolution of the game on the TV screen. You can see an example of this when you play Sonic the Hedgehog 2 in the two player cooperative mode. Essentially what Sega is doing is taking two screens and compressing the height to one half screen. They then combine the two halves onto the TV and end up with a new screen that has double the resolution. Unfortunately only the vertical dimension has been doubled and each of the two new half screens has a very obvious 'squashed' look.

Now the bad news. Even with the new Sega CD attached to the Genesis, neither the number of on-screen colors nor the number of sprites will be increased with the new super-system. The ASIC chip will only be used for the special effects. That doesn't mean that Sega won't come up with any new programming tricks in the future though.

The Giga Drive is alive and doing well. Last year Sega's president - Tom Kallnske admitted to such a project and rumors continue to circulate about when this new 32-Bit system will come out. The most recent version has the Giga Drive coming out next Christmas and being fully compatible with the Sega CD. It will be downwardly compatible with the Genesis (in the same way as the Genesis can play Master System games), and the new Giga Drive will have colors and sprites up to the kazoo. The first games will be some of the arcade titles (like Rad Mobile and Rail Chase) that we are now playing on their System 32.)

SEGA UNVEILS NEW CD GAMES AND PERIPHERALS!

On October 15, 1992 Sega of America held a press conference in New York to officially roll out their Sega CD peripheral. Members of the press got their first hands-on experience with the Sega CD and the first wave of games. While the CDs were interesting, it was the new technology being demonstrated that really got everybody's attention.

FULL MOTION VIDEO

Out of all the games on display, the most impressive titles contained moving video. Night Trap, Sewer Shark, Citizen-X as well as three 'Make Your Own Music Videos' were the best and clearly demonstrated the power of the Sega CD.

These live-action CDs involved new software programs that reduce the palette down to 64 colors, cut the frame rate in half and then digitize the end product.

Sega could offer a mouse as an option for its Sega CD.

The Sega CD is available now and sells for \$299 with 5 discs.

SCALING, ROTATION, ZOOM

A custom graphic processor chip known as ASIC has been built into the Sega CD. This chip handles all of the cool functions that make the Sega CD shine so brightly. Best of all, these functions will now be done automatically in the system hardware. Smooth scaling, rotation, zoom, pseudo 3-D simulation and fading of individual sprites (rather than backgrounds like the Super NES does) will all be possible through ASIC. The number of sprites or colors will not be increased though.

THE FUTURE

Sega is hesitant to comment on releases beyond three or four months, but they have announced that there will be a back-up RAM cartridge for the CD. This cartridge will plug into the Genesis and allow the player to save game information ranging from high scores

to player data from RPGs.

A second item soon to appear is a mouse. This will greatly speed up 'point and click' type programs like the new Make Your Own Music Videos and the upcoming Video VCR programs.

Beyond this, the sky is the limit. Programmers have already learned how to extract a continuous stream of uninterrupted multi-track full motion video from the CD, and as compression technology improves, the second generation of CDs will take this medium into areas that aren't even considered possible by today's standards. The key now is to integrate this new form of video game visualization into games that will be as much fun to play as they are to look at.

Next year Sega will offer a back-up RAM cart for the Sega CD.

SEGA ANNOUNCES NEW PACK-IN FOR GENESIS MENACER!

Sega of America has just announced that they will be offering two different configurations of their popular Menacer light gun peripheral for the Genesis game system.

The first version, which is in the stores now, consists of their Menacer gun with the six-in-one game cartridge. This starter package currently retails for \$60.

Sega's Menacer light gun peripheral currently sells for about \$60.

The second package, which is scheduled to appear in the stores before Christmas, will contain the Menacer light gun peripheral, the six-in-one cartridge and Acclaim's mega-hot T2: The Arcade Game cartridge. This step-up package will carry a suggested retail price of \$90 and represents a saving of \$20 over both items if purchased separately.

T2: The Arcade Game will be included in the \$90 Menacer package.

BATON TECHNOLOGIES READIES NEW GENESIS MODEM!

Baton Technologies recently demonstrated for the Mega Play staff a new Genesis modem called the Teleplay that will allow games to be played over the telephone lines. This revolutionary peripheral incorporates new technology which now makes modem games a reality. Faster data transfer rates (2400 baud) and simplified

set-up and operation, are two of the key features to this new accessory. The Teleplay also has a port to include a keyboard and printer should the user want to tap into some of the on-line PC services.

Available next Spring, the Teleplay is projected to cost about \$80 and come with the game Terran Wars. Three more will be available immediately, with another four projected to be ready by the end of 1993.

Best of all, Baton showed that their modem will not be limited to just Genesis owners. With a similar package for the NES (and later next year for the Super NES), Genesis players will be able to play head-to-head with NES players!

The Teleplay modem allows games to be played over the telephone!

MOTION VIDEO FOR SEGA CD!

One of the best features of the Sega CD is its ability to play games that contain real video footage. Considering the huge memory capability of the CD medium, the problem of getting moving video onto a CD is actually much more complex than it seems. Even with 4.4 gigabits of memory on a CD, only about 70 seconds of full-screen broadcast quality footage can be generated. By making compromises, however, the 70 seconds can be stretched to well over an hour.

How? The first cut reduces the color pallet to only show the 64 colors the Genesis can display. Secondly, the frame rate is reduced from 30 frames per second to 15 fps. The live area of the image is next cropped down to 1/3 screen. Lastly, the material is digitized and the remaining footage is compressed using new programming techniques.

Taking the concept one step further, however, Digital Pictures was able to compress data so tightly they got the Sega CD to run continuously at 150 Kbyte/second without stopping to load in more data like other CD games must do. The end result - 65 minutes of continuous digital video footage that the player can manipulate as easy as pushing the buttons on a VCR! The first three projects in the "Virtual VCR" line are Time Warner cartoons.

Virtual VCR gives 65 minutes of continuous moving video on the Sega CD!

FOOTBALL'S GREATEST LINE-UP EVER.

Get ready to tackle Madden's finest season yet.

John Madden Football™ '93. The all-new version of the game with the greatest run anywhere. The top of the charts since day one.

This year, Madden really makes history. Twenty-eight updated pro teams. The eight greatest teams of all time—

Miami '72, Oakland '76, Dallas '77, Pittsburgh '78, Washington '82, San Francisco '84, Chicago '85, New York '86.

Plus the '92 All-Madden team and his Greatest Ever squad.

So you can pit the Hogs against the Steel Curtain. And see who lands on top.

In all, thirty-eight different teams. Think you can find a more hard-hitting game? Take a hike.

8 GREATEST TEAMS

MIAMI '72
OAKLAND '76
DALLAS '77
PITTSBURGH '78
WASHINGTON '82
SAN FRANCISCO '84
CHICAGO '85
NEW YORK '86

Here are my picks.

John

Talk about a game with Madden written all over it. Madden '93 has yards of plays. A total of 125 including new audibles. Each from the pen of John Madden. Including the no-huddle offense and a quarter-back kills the clock play.

It's a game of match-ups—Madden's brand of football. Each team scouted by the man himself. Battery back-up saves game and player stats through the playoffs. Make the right match-up at every position and you'll go all the way.

The actions never been more explosive. Shoestring catches. Clothesline tackles. Head butts. Defensive shifts. Safety blitzes. Taunts.

The more intense the action, the more excited Madden gets. Blasting out comments like "Boom!"

Madden's playbook has some big surprises. Get caught in the wrong formation and you'll get burned.

Where'd that truck come from? It's the true personality of football.

Call the no-huddle offense and you'll give an out-of-position defense the slip. Especially if it's a snowy day in Buffalo.

With head butts and shoestring catches, this game definitely has all the right moves.

A split play-calling screen keeps the other side of the line on its toes. Tougher computer opponents keep you on yours.

EASN™, the Electronic Arts Sports Network, is all over the field like a roving linebacker. Highlights. IsoVision™ instant replay. Cameras covering every angle of the game.

Make the right call. Phone (800) 245-4525 anytime. Or visit your local EA dealer. And get the only game worthy of the Hall of Fame.

"Make Musashi The Ninja Run Backwards!" *Remake of Shinkai*

Here's a neat trick you can do only with GAMEHANDLER GS. To add new challenge to Remake of Shinkai from Sega, try to beat the game running backwards. All you have to do is flip the case of your GAMEHANDLER GS controller upside-down. Now Musashi the Ninja runs backwards and must stop momentarily to fire his weapon. See how good you really are.

Fight in the darkness of night while combating the enemy forces.

What a hotfoot! This enemy is highly trainer to use the flame thrower.

A flying boot to the head will put a stop to this persistent ninja foe.

Take a harrowing ride on an airship through the airborne Stage 5.

DOLPHIN

Genesis / Sega

Dolphin is the title that Sega has been claiming will set a new standard for all future cartridge games!

As you can obviously tell by the name, Dolphin puts in control of a porpoise out to locate his missing dolphin family. The hero's name is Echo and his search will take him through vast oceans where Echo will face a variety of sea creatures that can help him in assorted locations.

Sega incorporated a technique of filming live dolphins to make the swimming animation the most incredible sight ever! Since dolphins have the built in sonar capabilities, it seemed only right that this technique be used to help Echo talk to undersea life.

This revolutionary product is still in the finishing stages but this is the game to watch for!

Echo's sonar capabilities allow him to see things his eyes cannot.

Brave the challenges of an underwater castle littered with dolphin traps.

Echo's buddies can help with the parental search in some stages.

The scenes take place with beautiful backgrounds and serene music.

SCENE 1 NEW YORK CITY

The first battle will be a constant struggle through the sewers and streets of Manhattan. Plenty of evil enemies will stand in your way, including the Roadkill Rodney's, Foot Clan soldiers, and sewer-lurking Pizza Monsters. That cajun gator with an attitude—Leatherhead, will be waiting for you at the end of this level. Dodge his onslaught of flying knives to advance to Scene 2!

Prepare to take on the king of the Cajun swamps, Leatherhead!

Sail towards the ship via your surfboard and dish it out to the Foot Clan on board!

SCENE 2 A MYSTERIOUS GHOST SHIP

First you will need to surf your way to the spooky ship. Beware of the many dangers in the water. Surfin' foot soldiers and jet-propelled Mousers lurk everywhere! Once you reach the broken ship, more foot soldiers pounce on you and then the Traags step in to try to finish you off! Finally, enter a cave and prepare to do battle with the strong but stupid Rocksteady!

Use your ninja power against Rocksteady after you magically appear into a cave!

SCENE 3 SHREDDER'S HIDEOUT

Martial arts training is definitely out of the question here! One false move and you might be impaled by bamboo spikes or spears! Fight your way into the heart of the Dojo, dishing out some fancy ninja moves to annihilate the foot soldiers that get in your way. If you remember the TMNT movies, you'll know the boss is Tatsu, Shredder's lackey but a proud foot warrior!

STREETS OF RAGE 2

Blaze makes a return as the best all-around fighter. Her flaming fist and jump kicks are the most powerful weapons at her disposal.

VITAL STATISTICS

AXEL
Axel offers a great combination of power and speed, although his jumping ability is rather limited. His flaming punches are extremely deadly!

VITAL STATISTICS

EDDIE
Adam's brother Eddie has joined the fight. Riding on in-line skates, his fast speed and high jumping attacks outweigh a lack in power and stamina.

VITAL STATISTICS

MAX
Max is one tough dude! His punches and stamina are incredible, while his special attacks are bone-crushing! His drawback is his huge size.

VITAL STATISTICS

WHAT DOES NOT KILL YOU MAKES YOU STRONGER!

The biggest and baddest fighting game ever to hit the Genesis is finally on its way! This time, you must choose from four highly-trained characters to take to the streets to bust some heads.

Axel and Blaze make a bold return, each having learned some awesome fighting techniques.

Adam's brother, Eddie, is here along with the body builder, Max!

One or two players can take on

the forces of Mister-X and his minions through stages that take place in the city streets and in an old bar.

The attack moves have been improved in strength and overall presentation. Each character has also learned special techniques that can quickly reduce an opponent down to nothing! The drawback is that these

super moves deplete some of your own hit points-- the price of true power!

Bosses await you at every stage (of course) with their own brand of powerful attacks. Thugs wielding whips and knives present a special challenge as you fight to return peace to your beloved city!

As normally expected, it is time to take out some of the trash in the streets!

THE STREETS

These streets are crawling with scum. Here is where you will learn to master your basic attacks. Pipes, knives and other goodies are helpful items to stop the gang members.

Make it to the end and face the knife-wielding Jack. This thug will attack no matter where you hide!

As demonstrated by Axel, you can whallop more than one enemy at a time!

Grab a pipe and crack some heads. On these mean streets, anything goes.

Jack is a street thug equipped with an arsenal of knives and a very horrid laugh!

Blaze takes out a punk with one of her specialties-- the devastating body throw!

The drunks are tough, but you are certain to have enough strength to defeat them!

BATTLE OF THE BAR

Once you've cleaned up the streets, your next challenge is to take on the punks in the bar! There are plenty of goons to do some fist tagging with. There is enough action to make you sweat on the dance floor! Speaking of which, watch out for that country singer!

Once you've bashed through everybody on the dance floor, head up to the bar!

Electra busts out of her country disguise and will strike with an electric whip!

Beware of Electra, for her whip can pack some major wattage in your body!

In the heat of the battle, the bartender makes a quick dash outside. Hmm...

Head out the back door and smack around the goons standing about.

ALLEY AMBUSH

Not everyone likes it when you bust into their franchise and trash the place! So the Bartender and a handful of thugs are waiting outside to settle the score and take you down! Be patient, and you'll defeat him for sure! That's all for now, but you can expect more later!

From here it's time to toast the bartender once and for all! Bottoms up!

pain-killers.

How is the new NFL Sports Talk Football '93 better than the previous one?

For starters, we used a new process called digitized animation. It's about ten times more realistic, because we actually filmed a real player, Marcus Wilson, running through the plays. We then digitized the image, so it's virtual reality.

No contracts.

How are the plays different?

The previous game had 50 or so plays. The new one has thousands. I worked with Joe Montana to develop a play book based on the real NFL team plays, and each team's plays will be different. The more plays you know, the better you'll do.

No cheesy

So it's like coaching a real team.

Exactly, right on down to knowing the characteristics of individual players and teams. Your skill at choosing the right play at the right time determines whether or not you will beat the opposing team. Just like the real thing.

half-time entertainment.

Could it actually be used to train real players?

Actually, people have said that it would make a good coach's helper, kind of like a live textbook. I used to play football with the guy who developed the game for Sega. And when he approached me to do this, the goal was that it was to be the most realistic and authentic video sport game out there. I think we succeeded heavily. It's a really terrific game.

(Other than that, pretty realistic football.)

You'll probably wipe-out quite a few times when you first begin to race. Some of these crashes are pretty spectacular! Here is just a sampling of what you're likely to see during a typical crash. Keep your eyes on the road, and good luck!

Your driving skill will be tested by slow moving cars that hinder your progress.

This is what it's all about. Fight your way to the finish no matter what it takes!

SKATE WITH THE GREATS.

Nobody can hold a stick to these guys:

Messier, Coffey, Kurri, Linden, Savard, and the 544 other guys who play hockey at the highest level. The deadliest marksmen, the enforcers, the brightest stars of the pro game.

They're all captured in NHLPA® '93. The official game of the National Hockey League Player's Association®. The all-new version of the most action-packed hockey game ever.

Last year, NHL® Hockey was the top-selling Genesis™ sports title. This

year, the same game designers deliver even more explosive game play.

Check out all the players. The complete, accurate team rosters from the 1992 season.

Plus 1993's new Ottawa and Tampa Bay expansion rosters.

NHLPA '93 is the finest the sport has to offer. With more new pro moves than you can shake a stick at.

Faster, tougher to beat goalies who leave the crease to clear loose pucks, or lunge and dive to smoother shots. Individualized moves, like glass-breaking slap shots, nimble stick action, and brutal body checks. Each player skating his own unique game.

Hot new defensive techniques and an improved computer opponent raise the electricity in power play situations.

OUT OF THIS WORLD

STRANGER IN A STRANGE LAND

It's a classic case of overworking. While Lester was putting in too many hours in the lab, a storm began to brew. Suddenly the mood changed from studious to panic as the lightning discharge overloaded his equipment and hurled him into another world. Now it is up to you to use your scientific mind to find a way back home. Along the way you'll find a friend along with many foes. Out of this world takes on a whole new look and feel as far as action carts go.

The other world on level 1's inhabitants are drawn with smoothly animated polygon graphics. The game play is filled with puzzles and your character can interact with objects in the background. Can you survive the pitfalls, elude the endless obstacles, and with the help of your alien partner, make it Out Of This World?

A Classic Western Now

Saddle up your Sega® Genesis™ and fill your TV screen with the guns ablazing action of *Sunset Riders*, the wild western arcade hit of the year.

Bounty hunt the frontier's fiercest fiends through treacherous territory including lawless outposts like Reechforem Gulch. The stampede of bad guys will keep one or two tough hambres busy firing, fast and furious at cattle thieves, gunslingers, and Indians who have no reservations about attacking.

The trail is littered with extra bounty loot, six-shooter power-ups and decidedly destructive dynamite. Ride your trusty steed through bonus stages that hold survival items more precious than a sack of gold dust. And get a feel for the trigger in the Versus mode where you and your compadre can shower each other with lead. Hot dang, be sure to hitch up with the most rip snartin', knee slappin' blast from the past that ever rode into town!

SUNSET RIDERS

CLEAN UP THE WEST!

Sunset Riders is blasting its way out of the arcades and in to your Sega Genesis! Now you can follow the adventures of Billy Cool and his riotgun-toting amigo, Cormano Wild! When playing alone, you can select either Billy Cool or Cormano. While in the two-player mode, you and a friend can be gunslingers simultaneously! Billy is good for his quick draw, lightning speed and agility. Cormano, on the other hand, isn't as quick, but his riotgun packs quite a wallop with its deadly buckshot spray! Along the way, you can collect power-ups that enable you to shoot faster and add a second gun to your arsenal for maximum firepower! The objective is simple: fight your way to the end of each stage, duel it out with the boss and rescue the hog-tied damsel in distress. However, the path to get to her isn't so simple! You must dispose of vicious outlaws, knife throwing bandits, cutthroat desperados, savage Indians, and even avoid herds of stampeding cattle. Be alert, though, as some of your enemies have powerful attack weapons that you can use against them! For example, a few bosses throw dynamite that, if you're quick enough, you can throw back at them. You can also shoot fire arrows back to their fort with your trusty riotgun or six-shooter! Round up your posse and head out to clean up the West!

tons of enemies,

How will Sonic 2 be different from the original?

Sonic 2 will be much faster and have many more new moves. Like "Spin Dash," which will propel him forward really fast. You can play alone or two people can play with or against each other. And Sonic has a new friend called Tails, a four-year-old fox that has two tails and is almost as fast as Sonic. Tails can also use his tail as a helicopter propeller to fly.

and a running

Will there be more levels?

Yes. Over twenty different stages now. There are a lot of new challenges, like corkscrews and a chemical factory. Also, Dr. Robotnik is back and he comes with 25 different enemies. My favorite is the coconut throwing monkey.

mate with the

How do you get your ideas?

All kinds of ways. For example, when Dr. Robotnik captures animals, he puts them in a metal shell. We got the idea for that from a movie we saw as kids, in which a giant gorilla is encased in armor. Ideas can come from anywhere.

mind of a four-year-old.

How do you go about creating a game?

We start with a storyline, and then create the action and graphics. But we change the storyline a lot as we go, so we have a writer who works with us. For example, we added the Mechanical Zone after we decided to put the animals in the metal shells.

(No, it's not another presidential election.)

Is there anything you'd like to say to Sonic 2 players?

Take care of Tails. Look for many hidden rooms. And have fun. Having fun is the most important thing.

GRID IRON GRIND!

Few people in the world know more about football than the infamous John Madden. He brings his own unique perspective to football. You can't beat his commentary and color announcing! This is football the way all true fans of the sport like it - no mercy!

If you are familiar with the first two installments of this game you will be impressed with the new features that have been added to this sequel. First, there is a new hurry up, no huddle offense which helps you with tough defenses. Next, the 28 pro teams have been updated and game play is now smoother and faster! Third, eight of the all-time greatest teams from the past have been added to the team roster. This game is a must for any Genesis owner who enjoys football as much as John Madden does!

Pick your team and the weather conditions before starting the game.

Take a close look at the strengths and weaknesses of each team!

If you win the coin toss then you must decide if you want the ball now or later!

You have a lot of really killer plays to choose from. Execute them well to win!

This is the way to blow them off the line! Madden would be proud of you!

S.C.A.T. MISSION 230

Mr. and Mrs. Victor Martin are a curious couple: On the surface they seem like your typical loving parents with their two straight-arrow children, Jeff and Sarah. However, five girls disappeared recently and the last place they were sighted was at the residence of (you guessed it) Mr. and Mrs. Victor Martin! It is time to find out what is going on before something happens to the five new girls staying at the Martin's this weekend. This time there is an undercover agent as well as a surveillance system inside the house. You have tapped into the system, and can see inside every room. If anything out of the ordinary appears, use the hidden traps in each room. When the meter points to red, hit the B button and catch some nasties. However, if you let too many ghouls escape or if you accidentally trap one of the guests, you will be relieved of duty by Commander Simms. Good luck!

However, don't get trigger-happy, as you only have a limited amount of energy for you gun. Also pay attention to the directions your ship's mechanical probe, Cat-

Believe it or not,

*An interview with
Scott Bayless, CD developer at Sega.*

the brains behind Sega CD™

What are the technical advantages of Sega CD?

Basically, it offers massive storage, which means we can now use real video action. A 16-bit cartridge could only hold a few seconds of motion video. But the CD holds over 500 megabytes, so you can now play for hours, interacting with real video.

don't wear pocket-

So the games will be more realistic?

Yeah, way more realistic. We have a second processor and a special graphics chip, so our zooming, scaling, and rotation is incredible. And we use a lot of real-life video you can actually interact with. Characters will speak to you and harass you.

protectors or glasses

What do you mean "interact"?

For example, there's a game called "Night Trap,"™ that uses all real-life footage with real actors, and you control the action. You have to rescue girls from a house full of ghouls by operating a surveillance system, and trapping them in different rooms. It's like controlling the plot and the action of a real movie, from start to finish. It's pretty wild.

held together with tape.

Do you have a personal favorite CD game?

Yeah. I like the INXS music video game, where you can re-edit their videos with different special effects and graphics. The sound on all the CD's is pretty amazing; it's just as good as an audio component. Plus we're using a lot of original music. When you hook it up to your sound system, it's like playing in a whole new realm. It's really amazing. You forget where you are

LHX ATTACK CHOPPER

Pilot either an Apache assault chopper or the secret LHX as you blast through 45 levels of simulation action. Filled with numerous weapons and visual perspectives, you'll be in total control as you save the world.

Electronic Arts	Genesis	Action	8 Meg	Now
-----------------	---------	--------	-------	-----

DAVE

LHX is an above average game that offers something new when you get tired of basic shooters. The game plays well but it gets rather repetitive. Blowing up the camels is an odd touch.

G.O.G.

While the fighting isn't all that intense, I like it. Where else can you blast camels into oblivion. The sounds are just average, but the control and animation set this one above most sims.

MIKE

This simulator just doesn't pack the kind of realism or feel that makes these games popular. The many views were a nice feature but missions are tedious and not very original.

BART

This is one of the most impressive simulations for the Genesis. The polygon graphics are very well done and the game play is very good. Repetitive but a touch of humor adds to the game.

JOHN MADDEN '93

Madden knows football, and this latest football game has all the hits and plays you'd expect. Electronic Arts has enhanced their graphics and game play to bring a hard-hitting, heavy-duty season of tournament football.

Electronic Arts	Genesis	Sports	8 Meg	December
-----------------	---------	--------	-------	----------

DAVE

The Madden series has always been a favorite with me and this version is no different. All your favorite teams from past seasons are here and the animations are noticeably improved!

G.O.G.

Genesis football at it's finest. All that I liked from the previous versions are here. A lot of the choppi-ness has been done away with and the voice adds a personality to it. Wow!

MIKE

This is a football game that can immediately grab anyone's interest. The control surpasses other games with a quick and responsive feel. The graphics could be better, but it plays like a pro.

BART

This cart is everything that JM '92 is, plus you can play the all time greatest teams. Of course the '85 Bears make an appearance and being a fan, I love it. Still the same, but still great.

SONIC 2

The famous hedgehog is back and this time he's brought along a friend, Tails. In this long-awaited sequel you once again battle Dr. Robotnik tearing up the terrain as you fight into the Death Egg Fortress.

Sega	Genesis	Action	8 Meg	Now
DAVE	I never thought the original could be beat! The two player version is a terrific touch and all the levels are beautifully drawn! Sonic 2 is a fantastic sequel from beginning to end!		G.O.G.	One word: amazing. This game exceeds the first one in almost every way! While I find the colors aren't as bright, the addition of a second player, and faster speed, makes up for it.
MIKE	This is the best sequel ever made for the Genesis. The addition of Tails and the many new gadgets send Sonic soaring. Game play is the same but graphics and gizmos will make this a hit.		BART	Sonic's back for more. The graphics are great and the game play has a few new touches. The levels are large but very straightforward. The 2-player mode is too distorted to enjoy.

BIO HAZARD

Bio beasts are taking over the world and it's up to you to destroy an onslaught of mutant insects. Choose from four different ships and gather the energy pods to power up the Earth's only hope of survival.

Sega	Genesis	Shooter	8 Meg	Now
DAVE	To be honest, I expected more from this game. It has the looks and feel of a winner, but the overall game is nothing to shout about. A game to get if you are a fanatic of Genesis shooters.		G.O.G.	Intensity is the key here. While a tad similar to Insector-X, the swarms of enemies are much more vicious. The animation is really cool, and the music gives me an eerie feeling.
MIKE	This shooter has many power-ups and enemies but the game play and sounds are slightly lacking. The game has graphics with an insect theme, but overall, it's nothing special.		BART	The graphics and animation are very cool. I'll give it that. The sound support isn't very impressive and the game play is nothing special. A couple neat power-ups and not enough variety.

GADGET TWINS

The kingdom's sacred gem has been stolen - what to do? Never fear! It's Bop and Bump, the Gadget Twins, to the rescue! This two-player game takes Sega to new heights in their quest to retrieve the gem!

Gametek	Genesis	Action	8 Meg	Now
DAVE	Gadget Twins holds its own as a shooter with a unique method of punching the enemies to destroy them. The cartoony graphics are nice and the music has a catchy tune.		G.O.G.	This comical game is filled to the brim with unusual enemies and power-ups. The two-player mode is a blast and really improves the playability. The controls handle a bit slow though.
MIKE	A cute little game with cartoon-like graphics and sounds. The major drawback is the unusual game control that inhibits the enjoyment of this otherwise adorable and fun game.		BART	This is one of the most enjoyable shooters available for the Genesis. The graphics are cute and the method of attack is unique. The game is good but the controls are awkward.

LIGHTENING STRIKE

Brought to the U.S. this Thunder Force sequel is packed with action. There are eight levels of shooter excitement and eight different types of power-ups to keep you busy as you fly through many different worlds.

Sega	Genesis	Shooter	8 Meg	January
DAVE	While not as stimulating as Thunder Force 3, this shooter does deserve credit as a powerful game! Cool weapons, detailed backdrops and wild bosses make this one a winner.	G.O.G.	The parallax makes me dizzy, and the relentless attacks make me quake in my boots. The music really rocks, and control is great too. The slow down however is aggravating. Awesome.	
MIKE	This new installment of Thunder Force just doesn't seem to have improved over the last installment. There are a bunch of power-ups and big bosses. An overall cool shooter.	BART	I was disappointed with this cart. The graphics are good but aren't as crisp and colorful as the first. The game play is tough and the power-ups are cool. Nothing new or revolutionary here.	

AQUATIC GAMES

You've heard of the Olympic Games, now get ready for the Aquatic Games, starring James Pond and his friends, The Aquabats! Survive the 100m Splash, and other grueling events! Even play with a friend!

Electronic Arts	Genesis	Sports	4 Meg	Now
DAVE	Olympic video games can be boring, but his game is a great spot. The events are comical and present a respectable challenge but I just can't see this game having long-time value.	G.O.G.	While an innovative concept for the James Pond character, the game looks as if it's for children, but the game-play is more to the older player. The music is average, as is the game itself.	
MIKE	Here's a game with graphics that can appeal to kids and game play that can challenge adults. The eight events are cute and yet retain a good level of difficulty. A definite splash!	BART	This game seems to be targeted at the younger audience, but is tricky enough to appeal to hard core gamers. Quite challenging, and lots of fun when being played by two players!	

ROAD RIOT 4WD

Drive around the world on tracks hosted by a variety of interesting individuals! It's ready, set, go with Road Riot, but it is hardly a laughing matter. See if you can survive these tracks or crash and burn!

Tengen	Genesis	Driving	8 Meg	Spring '93
DAVE	Sorry, but his version just doesn't do the arcade justice. The control is rough and the game plays just too slow. Hitting the spectators as they walk on the course is funny, however.	G.O.G.	While it's not the arcade game, I find a lot to enjoy here. The pace is fast and furious. I love the voices, and the ability to run down spectators. It lets you lower you stress level.	
MIKE	An interesting idea but a poor execution. The terrain and racing was good but the control and overall graphics were rather weak. More cars and detail would have made the difference.	BART	A very poor coin-op translation that falls short in game play and graphics. The control is non responsive and the graphics are cheesy. The 1st person effect is disappointing for a 16-Bit cart.	

COBRA COMMAND

Fly with the eagles - or die like the rest! Only the best survive this gunship simulator that takes the Sega CD to an all-time high! 10 senses-shattering levels to test your skill, and nerves, in this battle to the end!

Sega	Sega CD	Action	CD-ROM	December
DAVE	One of the first of the CDs and actually one of the better ones! If you can get by the idea of the linear controls, you have a good, solid shooter/simulation. Not for the weak at heart.		G.O.G.	This is the next frontier of video gaming. The game looks like a cartoon, and plays quite well. My only problem is with the severe lack of colors. Truly something to look out for.
MIKE	There is a lot of realism in this game complete with digitized graphics. Game play is rather simplistic and for a CD, the sound could be better, but the visuals make for a worthy mission.		BART	Take away the super cool cinema/cartoon-like back drops and you have a move-the-cursor-and-shoot game. Includes them and you get a high tech trip from start to finish. Repetitive.

BLACK HOLE ASSAULT

The solar system is once again under attack. The enemies are equipped with armored assault suits. You must master modern fighting machines to defeat the alien force and reclaim the universe.

Bignet	Sega CD	Fighting	CD-ROM	Now
DAVE	Contrary to my colleagues opinions, I find this game to be highly addictive and enjoyable to play! There are plenty of robots with unique attacks coupled with an awesome CD soundtrack!		G.O.G.	While looking similar to Heavy Nova, the game play is faster, and smoother. While there are not that many moves, the technique involved helps. I love the rockin music and cinemas.
MIKE	This could be the Sega CD's breakthrough into the fighting genre. The action and control are good but graphics are a bit dark and cloudy. Could use a few more character moves.		BART	I like this cart a little more than its cartridge cousin Heavy Nova. The graphics have improved as well as the sounds and music. However, the game play is still choppy and repetitive.

LEMMINGS

These roaming fuzzy critters seem to have an appetite for self-destruction. You must guide these gullible guys through 30 levels of mazes saving all you can. This portable cart becomes very addicting.

Sega	Game Gear	Action	2 Meg	Now
DAVE	As a big fan of Lemmings, this game completely does justice to its 16-bit counterparts! Enough levels to keep you busy on those road trips and the puzzles are always a challenge.		G.O.G.	Those little buggers seem to play well no matter what system they're on. Always a challenge, and lots of mind boggling fun. The eye strain is worth it, as you will become addicted easily!
MIKE	The addictive computer game has finally made it to a portable. A good replica, it contains all the strategy and various lemmings that made this a compulsive maze craze on all formats.		BART	A pixel for pixel translation for the GG. Everything is intact and the game looks and plays extremely well. The best thing about it is the fact that you can bring it with you wherever you go!

GAME OVER!

TERMINATOR

OUT OF THE ASHES...

The mechanical terror from a devastated future has been transported back into our time and it's sole mission is to kill Sarah Connor. You must protect her at all costs and find a way to put an end to this monster. As you start the last level of the game, the Terminator, now a charred endoskeleton, will stalk you through a nightmarish industrial complex. To eliminate him you must lure him to the hydraulic press. If he gets too close, you can blast him with your shotgun, but don't blow his legs off too soon, as he then becomes even faster, more evasive, and virtually impossible to hit. It is best that you lead him near the press, make your move, and terminate him!

You won't be able to destroy the Terminator by shooting it. He can be slowed down with a well-placed shotgun blast but remember, you can only knock the Terminator back five times. After that he will become invincible, and he can easily corner you, finish you off and get to Sarah. Timing becomes everything; you have to know when to run-- and when to fight!

Prepare for the future..

- A. First get the Terminator behind you, but try to stay a safe distance ahead of him.
- B. Run to the hydraulic press and let him follow you.
- C. Blast the machine's legs out from under him!
- D. He is damaged, but far from disabled. Wait for him to crawl underneath the smasher.
- E. Crush his circuits, and save the future!
